<u>Adaptive Management Satellite Series – Part III</u> <u>Implementing Adaptive Management - Iterative Phrase</u>

This interactive satellite course will be broadcast live from the US Fish and Wildlife Service National Conservation Training Center in Shepherdstown, West Virginia. It will be broadcast on the GETN digital system for National Park Service and US Fish and Wildlife Service employees, and it will be simulcast live on BLM's C-band analog satellite network and on the DISH Network public interest Channel 9411, University House.

This broadcast is the third in a series to introduce the Department of Interior's Adaptive Management Technical Guide.

A panel of experts--Ken Williams (USGS), Jim Nichols (USGS), Mike Mayer (NPS), Fred Johnson (FWS), and Karen Simms (BLM)--will describe how to use adaptive management as a resource tool, using case studies to illustrate important points. This interactive discussion will focus on the Iterative Phase including decision-making, follow-up monitoring, assessment, and the iteration of these steps. The presenters will answer questions from the audience during the broadcast, which will be hosted by Dave Lemarie (FWS).

Additional information on this interagency training is available to all participating DOI agencies through DOI Learn or at: http://www.doi.gov/initiatives/AdaptiveManagement/training.html

The viewer Participant Guide is available at: http://www.doi.gov/initiatives/Adaptive Management/training.html

DOI employees are requested to register for this course via DOI Learn at: https://doilearn.doi.gov

FWS and NPS satellite downlink sites are listed at: http://distancelearning.fws.gov/location.htm

BLM has C-band analog downlink capability at more than 135 offices. Locations and contact information on all BLM downlink sites can be found at: www.ntc.blm.gov/satnet/network.html

C-Band Analog Satellite Downlink Information

Transmission Type	Satellite	Orbital Location	Transponder	Polarity	Downlink Frequency
C-Band	Galaxy 25 or 'G-25'	97 Degrees West	9	Vertical	3880 MHz

C-Band Satellite Help Hot Line - (602) 906-5629

November 29, 2007

For help with C-Band reception problems. (Day of the Broadcast Only)

Broadcast Schedule - C-band and DISH Network Simulcasts

Time Zone Reference

Time Zone	Test Signal	Program Starts	Program Ends
Alaska Standard Time	9:30 am	10:00 am	12:00 Noon
Pacific Standard Time	10:30 am	11:00 am	1:00 pm
Mountain Standard Time (Arizona Time)	11:30 pm	12:00 Noon	2:00 pm
Central Standard Time	12:30 pm	1:00 pm	3:00 pm
Eastern Standard Time.	1:30 pm	2:00 pm	4:00 pm

<u>Interactivity</u>: During this telecast viewers may participate via e-mail, telephone, fax or through the use of the Push-To-Talk audio system available at many NPS, BLM and FWS downlink locations.

The number for the listen-only phone line for the AM broadcast is 800-779-7694, and the passcode is 3511860.

e-mail questions via: broadcast@fws.gov

Push to Talk Bridge numbers will be provided to site coordinators during the 30-minute test signal period

Faxed Questions may be submitted toll free at: 1-877-884-6282
